

GEORGIA BOARD OF DENTISTRY
Conference Call
2 Peachtree St., N.W., 6th Floor
Atlanta, GA 30303
August 14, 2020
10:00 a.m.

The following Board members were present:

Dr. Tracy Gay, President
Dr. Brent Stiehl, Vice-President
Ms. Becky Bynum
Dr. Richard Bennett
Dr. Greg Goggans
Dr. Glenn Maron
Dr. Ami Patel
Mr. Mark Scheinfeld

Staff present:

Eric Lacefield, Deputy Director
Peggy Eckrote, Deputy Attorney General
Max Changus, Assistant Attorney General
Kimberly Emm, Attorney
Brandi Howell, Business Support Analyst I

Visitors:

Tavneet Singh
Yonatan Polack
Pam Cushenan
Scott Lofranco, GDA

Open Session

Dr. Gay established that a quorum was present and called the meeting to order at 10:10 a.m.

Introduction of Visitors

Mr. Lacefield asked the visitors on the call to send an email via the “Contact Us” portal on the website if he/she would like his/her name reflected as being in attendance in the minutes.

Approval of Minutes

Dr. Goggans made a motion to approve the Public and Executive Session minutes from the July 10, 2020 Conference Call, the Public and Executive Session minutes from the July 10, 2020 Sedation Committee Conference Call, and the Public and Executive Session minutes from the July 24, 2020 Emergency Conference Call. Dr. Maron seconded and the Board voted unanimously in favor of the motion.

Report of Licenses Issued

Dr. Maron made a motion to ratify the list of licenses issued. Dr. Patel seconded and the Board voted unanimously in favor of the motion.

Petitions for Rule Waiver or Variance

The Board discussed the response received from the Governor’s office regarding temporary dental licensure. Dr. Gay stated that after reviewing the Board’s suggested guidelines, the Governor’s office feels the Board does not have the authority to issue temporary licenses for dentists. Dr. Gay stated that the Board was looking for an Executive Order from the Governor that would allow such; however, the Board has not received an official response. Dr. Bennett requested Mr. Changus provide insight regarding this matter. Mr. Changus stated that the Board has held discussion on multiple occasions regarding what the Board’s authority to issue temporary licenses is. He further stated that last year there was discussion regarding temporary licensure in a volunteer setting and the Board was advised by the Attorney General’s office that it did not have authority to issue those licenses. The Georgia Dental Association (“GDA”) took the matter to the legislature to get a bill passed that would allow for such. Mr. Changus stated that there is

a provision that allows a temporary dental hygiene license. He stated that O.C.G.A. § 43-11-70.1 states in part, “A person who furnishes the board satisfactory proof of being currently licensed to practice as a dental hygienist in another state and who has applied for, paid the fee for, and been authorized by the board to take the examination required by Code Section 43-11-70 shall be issued a temporary license to practice as a dental hygienist in this state. The temporary license shall be valid from the date of issuance until the results of the first examination scheduled for the applicant are released...”. Mr. Changus explained that there is no corresponding provision for dentists. He stated that this has been brought up previously and there is no basis to issue a temporary dental license without someone passing a clinical examination. He further stated the requirement to pass a clinical exam is in O.C.G.A. § 43-11-40 directly. Mr. Changus explained that what the Board will accept in terms of the clinical exam is done through a rule. Dr. Bennett stated that if a recent graduate has not taken a clinical exam, there is no pathway to licensure in Georgia for a dentist. Mr. Changus affirmed that was correct. Dr. Maron added that it is outside the Board’s powers to do anything. Mr. Changus agreed and stated the General Assembly has provided what is required prior to the issuance of a license. Mr. Scheinfeld stated that the purpose of the guidelines for temporary licensure that were proposed by the Board was in the event the Governor had the power to give the Board authority to grant temporary dental licensure. Dr. Bennett added that it is important for the public to understand if a recent graduate has not taken a clinical exam, there is no pathway for licensure at this time for a dentist.

The Board discussed the rule variance petition from Dr. Andrew Ply. Dr. Gay stated that Dr. Ply passed the examination administered by CITA. Mr. Changus commented that the Board has authority over what clinical exams would be appropriate. He added that the Board could agree to a waiver or variance of the rule. He explained that with this petition, Dr. Ply has taken another exam. Mr. Changus stated the statutory hurdle has been passed. He stated that in this petition, Dr. Ply states that he will take CRDTS as soon as a date is confirmed. Mr. Changus further stated that the Board has the authority to accept that variance to the rule. Dr. Gay asked if the Board has the authority to issue a license with a clause stating the individual must pass CRDTS once available. Mr. Changus responded that the Board has authority to grant the variance as proposed as Dr. Ply states he will take the CRDTS exam. Mr. Changus added that the Board could accept the petition under those grounds. He stated that he does not think a consent order would be needed as the Board would basically be granting the variance and allowing the individual to take the required exam. Dr. Bennett responded by asking Mr. Changus if he was implying the Board could approve the variance in this case and provide the individual a license with the understanding that he must take the next CRDTS exam when offered and pass, and does not have to be under an order to be enforced. Mr. Changus responded by affirming that was correct as the Board is accepting the variance as proposed. Dr. Maron inquired as to what would happen if the individual takes the exam and does not pass after having let the individual practice. Dr. Bennett responded that the Board established guidelines with the same preface for a temporary dental license. Dr. Bennett stated if the Board could come up with a pathway for those individuals that are caught in the crossfire, the individual could be issued a license with the understanding that he/she would be required to take a board-approved exam when available. Dr. Maron asked if the Board could do that. Mr. Changus responded by stating that he believes what Dr. Bennett is saying is that having an order in place that it is non-disciplinary is evidence of an agreement between this Board and that person. Dr. Bennett affirmed that was correct. Mr. Changus stated that consent orders are used for discipline. He stated that in this situation, there would be a consent order for licensure recognizing the variance and then with an agreement on the applicant’s part to take CRDTS, or a board approved examination, when it becomes available. After further discussion, Dr. Goggans made a motion to grant the rule variance petition as Dr. Ply has demonstrated evidence of a substantial hardship based on the special circumstances related to the cancellation of the CRDTS examination due to the COVID-19 pandemic and a new date for the examination has not been rescheduled. Additionally, the Board also finds that Dr. Ply has provided adequate justification for the variance since he successfully passed the clinical examination administered by CITA, which involved a live patient. The variance is granted with the condition that Dr. Ply agrees to take and successfully negotiate CRDTS or another Board recognized exam

once these exams are administered again. Dr. Stiehl seconded. Discussion was held by Dr. Maron who stated that he believes this is the right step. He further stated that the Board must be adaptive and understanding to what is going on. Dr. Maron stated that the Board should not prohibit individuals from practicing if he/she can demonstrate a level of competency by passing another exam. He further stated that if the Board provides a safeguard by requiring the individual pass a board-approved exam as soon as it is available and the individual understands that via consent order, that covers what the Board's intentions are. With no further discussion, the motion passed.

The Board discussed the rule variance petition from Dr. Ethan S. Khazali. Dr. Bennett made a motion to grant the rule variance petition as Dr. Khazali has demonstrated evidence of a substantial hardship based on the special circumstances related to the cancellation of the CRDTS examination due to the COVID-19 pandemic and a new date for the examination has not been rescheduled. Additionally, the Board also finds that Dr. Khazali has provided adequate justification for the variance since he successfully passed the clinical examination administered by CDCA, which involved a live patient. The variance is granted with the condition that Dr. Khazali agrees to take and successfully negotiate CRDTS or another Board recognized exam once these exams are administered again. Dr. Maron seconded and the Board voted unanimously in favor of the motion.

The Board discussed the rule variance petition from Dr. Ravina Patel. Dr. Bennett made a motion to grant the rule variance request as Dr. Patel demonstrated evidence of a substantial hardship based on the special circumstances as noted in her petition. Additionally, the Board also finds that Dr. Patel has provided adequate justification for the variance since she passed two dental licensure clinical examinations involving a live patient. Dr. Goggans seconded and the Board voted unanimously in favor of the motion.

The Board discussed the rule waiver petition and appearance request from Dr. Aaron Maslia. Dr. Gay explained that Dr. Maslia has not taken a clinical examination. Dr. Maslia was present on the call. He stated that he has not had the opportunity to take the exam due to the COVID-19 pandemic. Dr. Bennett explained that based on the Board's previous discussion, it does not have authority to provide Dr. Maslia with any type of license since he has not taken an examination.

Dr. Bennett asked if Dr. Kevin Frazier from DCG was currently on the call so that he could provide the Board with an update regarding the availability of administering the CRDTS exam. Dr. Frazier stated that DCG had to cancel the scheduled CRDTS exam due to facility issues. He explained that DCG had plans for several facility changes and modifications to provide for a safer environment. Dr. Frazier stated modifications to the air handling unit, in particular, have been delayed repeatedly. He stated that DCG was given a target date for completion of the modifications, but then it was cancelled and pushed further down the road, and as such, DCG is unable to commit to a date to offer an exam, especially with live patients. He further stated that the only exams scheduled at this time are the ADEX exam administered by CITA next March 2021 and then a follow up one in May 2021. Dr. Frazier stated that DCG regrets the inconvenience this has caused for everyone. Dr. Frazier explained the school is undergoing a phased restart. He continued by stating if the latest date holds up the modifications should be completed by the end of the month. Dr. Frazier stated if the upgrade is completed, DCG would try to expedite scheduling an exam this fall. He stated that all students that were eligible to take the exam attempted it; there were five students not successful.

The Board informed Dr. Maslia that he may wish to look into taking the ADEX exam and coming back to the Board. With no further discussion, Dr. Bennett made a motion to deny the rule waiver petition. Dr. Stiehl seconded and the Board voted unanimously in favor of the motion.

Mr. Scott Lofranco, GDA, spoke to the Board regarding similar questions GDA has received from recent graduates. He asked if the Board's current posture is if the individual is a recent graduate, he/she can take

a clinical examination anywhere and submit a petition for a rule variance for consideration by the Board until the law can be addressed. Dr. Gay affirmed that was correct with the clarification that the individual must negotiate a board-approved clinical exam. Ms. Emm added that the petitions granted with conditions will sign a consent order stating he/she will take a board-approved exam, when available.

The Board discussed the rule waiver petition from Dr. Amish J. Patel. Dr. Gay explained that Dr. Patel works in Florida and is requesting a waiver of Rule 150-7-.04(2). Dr. Goggans responded that the Board does not reciprocate with Florida for licensure by credentials. Dr. Bennett made a motion to deny the rule waiver petition, but inform Dr. Patel that he can apply for licensure by examination and resubmit a rule variance petition for consideration. Dr. Maron seconded and the Board voted unanimously in favor of the motion.

The Board discussed the rule waiver petition from Dr. Andrew Megison. Dr. Maron made a motion to grant a rule variance as Dr. Megison has demonstrated evidence of a substantial hardship based on the special circumstances related to the cancellation of the CRDTS examination due to the COVID-19 pandemic and a new date for the examination has not been rescheduled. Additionally, the Board also finds that Dr. Megison has provided adequate justification for the variance since he successfully passed the ADEX clinical examination, which involved a live patient. The variance is granted with the condition that Dr. Megison agrees to take and successfully negotiate CRDTS or another Board recognized exam once these exams are administered again. Dr. Maron seconded and the Board voted unanimously in favor of the motion.

The Board discussed the rule waiver petition from Dr. Magdalena Glass. Dr. Goggans commented that Dr. Glass has not taken a live patient exam, only manikin-based. Dr. Bennett responded that the Board has been very clear about a manikin exam. He stated there are certain components that need to be done on live patients. Dr. Bennett made a motion to deny the rule waiver petition. Dr. Goggans seconded. Discussion was held. Dr. Oliver Glass, husband of Dr. Magdalena Glass, was on the call and spoke to the Board. He stated that Dr. Glass has made every effort to take a live patient examination, but due to the pandemic, she has not been able to do so. Dr. Gay asked if the petitioner had registered for the CRDTS examination. Dr. Glass responded that the petitioner registered for the exam four times and it has been delayed each time. He explained that she has student loans and a work visa petition that is dependent upon her receiving licensure and staying in the States. Dr. Gay asked if there was any further discussion by the Board. Dr. Maron asked if the petitioner could take any other exam with live patients. Dr. Glass responded that the petitioner has made every attempt and there are no live patient exams available because of the pandemic. With no further discussion, the Board voted unanimously in favor of the motion.

The Board discussed the rule waiver petition from Dr. Mary Barron Stanley. Dr. Bennett made a motion to grant a rule variance as Dr. Stanley has demonstrated evidence of a substantial hardship based on the special circumstances related to the cancellation of the CRDTS examination due to the COVID-19 pandemic and a new date for the examination has not been rescheduled. Additionally, the Board also finds that Dr. Stanley has provided adequate justification for the variance since she successfully passed the SRTA clinical examination, which involved a live patient. The variance is granted with the condition that Dr. Stanley agrees to take and successfully negotiate CRDTS or another Board recognized exam once these exams are administered again. Dr. Stiehl seconded and the Board voted unanimously in favor of the motion.

The Board discussed the rule waiver petition from Dr. Peter J. Stanley. Dr. Goggans made a motion to grant a rule variance as Dr. Stanley has demonstrated evidence of a substantial hardship based on the special circumstances related to the cancellation of the CRDTS examination due to the COVID-19 pandemic and a new date for the examination has not been rescheduled. Additionally, the Board also finds that Dr. Stanley has provided adequate justification for the variance since he successfully passed the SRTA

clinical examination, which involved a live patient. The variance is granted with the condition that Dr. Stanley agrees to take and successfully negotiate CRDTS or another Board recognized exam once these exams are administered again. Dr. Stiehl seconded and the Board voted unanimously in favor of the motion.

The Board discussed the rule waiver petition from Yasaman Yasini. The Board recommended tabling this matter for further discussion in Executive Session.

The Board discussed the rule waiver petition from Dr. Yonatan Polack. Dr. Maron made a motion to grant a rule variance as Dr. Polack has demonstrated evidence of a substantial hardship based on the special circumstances related to the cancellation of the CRDTS examination due to the COVID-19 pandemic and a new date for the examination has not been rescheduled. Additionally, the Board also finds that Dr. Polack has provided adequate justification for the variance since he successfully passed the clinical examination administered by CDCA, which involved a live patient. The variance is granted with the condition that Dr. Polack agrees to take and successfully negotiate CRDTS or another Board recognized exam once these exams are administered again. Dr. Bennett seconded and the Board voted unanimously in favor of the motion.

Correspondences from Dr. Jeffrey Westra

The Board considered this appearance request from Dr. Westra regarding his rule petition that was denied by the Board previously. After further discussion, the Board directed staff to respond to Dr. Westra by suggesting he submit a rule variance petition for the Board to consider at its September meeting.

Correspondence from Dr. Kelsey Gass

The Board considered this appearance request from Dr. Gass regarding her rule petition that was denied by the Board previously. Dr. Gass, who was on the conference call, stated that she passed WREB in 2015, which involved a live patient. Dr. Gass added that she would be willing to take the CRDTS exam once available. Dr. Gass was advised by the Board to resubmit a rule variance request for the Board to consider at its September meeting.

Correspondence from Dr. Timothy W. Howarth

The Board considered this appearance request from Dr. Howarth regarding his rule petition that was denied by the Board previously. Ms. Emm noted that Dr. Howarth petitioned for a variance of the practice requirement in Rule 150-7-.04. After further discussion, the Board directed staff to respond by scheduling Dr. Howarth for the next available appearance.

Correspondence from Tiffany Lewis, Dental Arts of Dalton

The Board considered this correspondence regarding patient examinations. In Ms. Lewis' correspondence she states that Rule 150-5-.03(5)(b)(2) states, "*A patient must be examined by the authorizing dentist at a minimum of twelve-month intervals*". She asks, in light of the current pandemic, if the Board has discussed modifying this rule to an eighteen month interval. In response, the Board directed staff to respond by stating that O.C.G.A. § 43-11-74(g)(2)(B) requires a patient to be examined by the authorizing licensed dentist at a minimum of 12 month intervals.

Correspondence from Dr. Carla Nunez

The Board considered this correspondence from Dr. Nunez requesting the Board accept her ADEX results. Dr. Gay stated this individual has graduated from dental school and passed a clinical examination. Dr. Bennett stated this situation is different from the others where this person is in school five days a week in an orthodontic residency. He stated she is asking for a dental license to be able to moonlight on the weekends, which is a different scenario from his standpoint. Dr. Maron agreed with Dr. Bennett. He stated this is not the same type of issue where this person is limited from practicing. He stated this person

is a resident, who should be focusing on her residency. The Board directed staff to inform Dr. Nunez that her request will not be accepted.

Correspondence from Kendra McKune, GDHA

The Board considered this correspondence regarding teledentistry. In her correspondence, Ms. McKune requests the Board amend Rule 150-5-.03 Supervision of Dental Hygienists to authorize supervising dentists and their dental hygienists to send and receive secure electronic records and data. Dr. Gay stated the Board will take this as information and will address at a future meeting.

Ms. Suzanne Newkirk, who was on the conference call, asked if the Board has the authority to write rules that would allow a supervising dentist and dental hygienist working in safety net settings to send and receive this type of information using the teledentistry platform. Ms. Emm responded that the Board would need to research the matter further before it can issue a response.

Correspondence from Christopher Badgley, ADSO

The Board viewed this correspondence for informational purposes only.

General – Dr. Tracy Gay

No report.

Executive Director’s Report – Mr. Eric Lacefield

Application references: Mr. Lacefield stated this topic came up with the Credentials Committee in reviewing applications. He stated the application infers that the reference cannot be connected with any dental college the applicant attended. Mr. Scheinfeld added that the committee reviews numerous applications that include a reference from someone the applicant may have attended dental school with. He stated that he understood the logic, but it did not make sense to not accept this type of reference as he believes most of the board communicates with individuals he/she attended dental school with. With no further discussion, Mr. Scheinfeld made a motion to direct staff to amend the credentials application removing the statement restricting references cannot be connected with any dental college the applicant attended. Dr. Stiehl seconded and the Board voted unanimously in favor of the motion.

Attorney General’s Report – Mr. Max Changus

No report.

Legal Services – Ms. Kimberly Emm

Correspondence from Dr. Stanley Prince: Ms. Emm discussed this correspondence received regarding reimbursement for PPE using code D1999 versus D9999 code. Ms. Emm stated that she informed Dr. Prince that the Board does not deal with insurance coding and this is a matter that he needed to work out with his insurance company. The Board agreed that this was an appropriate response.

Rule 150-11-.01 Specialties: Ms. Emm stated that at the Board’s July meeting it received a request to add Oral Medicine, Orofacial Pain and Dental Anesthesiology to the list of specialties and tasked Ms. Emm with researching the matter. Ms. Emm informed the Board that she has gathered information on the current recognized dental specialties for the Board to review. The Board recommended tabling this matter until its September meeting due to time constraints.

Correspondence from Dr. Anthony L. Henry: Ms. Emm discussed this correspondence requesting consideration to have the temporary ability to use video communication for a dental exam for a small Medicaid practice. Dr. Henry is requesting to be able to view x-rays and a video exam. The Board recommended denying this request.

Dr. Richard Bennett made a motion and Dr. Brent Stiehl seconded and the Board voted to enter into **Executive Session** in accordance with O.C.G.A. § 43-1-19(h)(2), § 43-11-47(h) and § 43-1-2(k) to deliberate and receive information on applications, investigative reports, and the Assistant Attorney General's report. Voting in favor of the motion were those present who included Ms. Becky Bynum, Dr. Richard Bennett, Dr. Tracy Gay, Dr. Greg Goggans, Dr. Glenn Maron, Dr. Ami Patel, Mr. Mark Scheinfeld, and Dr. Brent Stiehl.
