- (a) Failing to conform to current recommendations of the Centers for Disease Control and Prevention (C.D.C.) for preventing transmission of Human Immunodeficiency Virus, Hepatitis B Virus, and all other communicable diseases to patients. It is the responsibility of all currently licensed dentists and dental hygienists to maintain familiarity with these recommendations, which are considered by the Board to be minimum standards of acceptable and prevailing dental practice. Authority O.C.G.A. §§ 43-11-7, 43-11-8, 43-11-47, 43-11-72, and 31-33-2

The Board voted that the formulation and adoption of these rules does not impose excessive regulatory cost on any licensee and any cost to comply with the proposed rules cannot be reduced by a less expensive alternative that fully accomplishes the objectives of the applicable laws as provided by the Attorney General's office.

The board also voted that it is not legal or feasible to meet the objectives of the applicable laws to adopt or implement differing actions for businesses as listed in O.C.G.A. §50-13-4(3)(A)(B)(C)(D). The formulation and adoption of these rules will impact every licensee in the same manner and each licensee is independently licensed, owned and operated in the field of Dentistry.
