April 30, 2012

Georgia Board of Dentistry
Isaac Hadley, D.M.D., President
237 Coliseum Drive
Macon, Georgia 31217

Dear Board of Dentistry:

In response to your letter dated April 30, 2012, regarding your post-renewal audit, I appreciate the Board’s willingness to work with our office in the efficient use of our limited resources. It was communicated to me that following your renewal period in December of 2011, the Board agreed to audit the dentists and dental hygienists who submitted a late renewal, answered “No” to the continuing education question, or who had previously been required to be audited due to a disciplinary sanction. Those audits are ongoing and will continue to be conducted on those applicants renewing through June 30, 2012.

Your letter references a Board vote to conduct another audit in August of 2012. At this time, the Professional Licensing Board division will be unable to meet your request for an additional audit. As I referenced in a letter sent to licensing board chairs on October 31, 2011, the secure and verifiable document requirement for professional licensure has caused a significant impact on the resources and workload for the Professional Licensing Board staff. Additionally, the Professional Licensing Board division has not been funded for the growth of professional licensing applications or new professions to be licensed, further placing strain on the resources and staff of the division. To give you an example of the stresses of the division, recently there were over 80 people on hold and waiting over 45 minutes to talk with the Professional Licensing Boards division concerning an issue with their license.

It is unacceptable to me that someone would have to wait 45 minutes to speak with the Professional Licensing Board division about their issues. I am hopeful we can work together to identify efficiencies that will allow the staff to spend more time supporting the public.

If you would like to discuss this matter any further, please contact my office at 404-656-2881.

Sincerely,

[Signature]
Brian P. Kemp
Secretary of State

Discussion ensued. Dr. Godfrey indicated that the Board should reject the directive from Secretary Kemp. Dr. Bennett stated that the Board should emphasize that this is not an additional audit.

Credentialing Committee Report – Dr. Becky Carlon

Dr. Carlon presented a report summarizing information on states for which dentists and dental hygienists applicants may be apply by credentials. She stated every state in the U.S. with the exception of Florida does licensing by credentials. She recommends that any person with a “clean” application from any state except Florida, who meets all requirements, be licensed upon the approval of the Credentials Committee or the full Dental Board in accordance with the laws and rules as reflected on the requirement sheet. The application would require full board review if the applicant did not meet all requirements listed on the requirement sheet. Dr. Carlon then suggested a new list for acceptance by credentials to include all states except Florida. She wants to ensure fairness to all applicants. Drs. Stacey, Godfrey and Nalley discussed the training programs. Dr. Carlon will amend her report to include successful completion that leads to a degree. She will present it at the next meeting.

The rules committee will need to meet before the July meeting to discuss the changes in the law that need to be reflected in the rules. Dr. Holcomb suggested being proactive and having the rules ready in the event the law gets changed. Dr. Holcomb asked if a list of rules for consideration has been made available yet. The rule on supervision of dental hygienists is done and the expanded duties of hygienists; however, two have been tabled.

Dr. Stacey stated that the Injectable Pharmacologics rule will require a committee. It was suggested that Dr. Stacey, as new President, can appoint such a committee.

Dr. Nalley made the motion, Dr. Holcolm seconded and the Board voted to enter into Executive Session in accordance with O.C.G.A. §43-1-19(h)(2), 43-11-47(h) and §43-1-2(k) and to receive information on appointments, applications, investigative reports, and Assistant Attorney General’s report.
