Public Hearing

Dr. Holcomb called the public hearing to order at 10:08 a.m.

Rule 150-7-.04 Dental Provisional License by Credentials
Public comments were received from Dr. Carol Lefebvre, Dental College of Georgia (DCG). Dr. Lefebvre had a question about protocol. Specifically, she commented when this rule was posted in September, DCG sent a letter about the impact of the proposed amendments on the program and at a subsequent meeting the Board had rejected the rule at that time. She stated in December there was no Rules Committee meeting. Dr. Holcomb responded that the Board will ensure that the letter has been reviewed for consideration.

Rule 150-8-.01 Unprofessional Conduct
No comments or written responses were received.
Rule 150-9-.01 General Duties of Dental Assistants
Public comments were received from Wendy Blond, GDHA. Ms. Blond commented that with the proposed changes there are two parts to consider. One is how it will look when it effects the consumer. Will this be a D1120 or D1110? She stated both require scaling, but a rubber cup prophy does not involve scaling. She commented that the Board received a lot of testimony regarding the need for scaling on pediatric patients, and maybe it should consider different language between rubber cup prophy and prophylaxis, so consumers are aware and billing is appropriate. She stated the second part is related to who is providing the service. Rubber cup prophy is a term specific to Georgia term thanks to the bill. She asked what it looks like in other states. If it does not involve scaling it is coronal polishing. She stated the GDHA requests the proposed rule for dental assistants be moved from 150-9-.01 General Duties of Dental Assistants to 150-9-.02 Expanded Duties of Dental Assistants. She commented that the on the job training is not sufficient. She stated she understands the Board is looking to expand what assistants can do, but they want to make sure the assistants know what they are doing.

Dr. Holcomb, in an effort to ensure the Board’s understanding, stated that he believed Ms. Blond is looking for is (1) clarification of coronal polishing versus rubber cup prophy, (2) how it is billed, and (3) the necessary training. Ms. Blond indicated that those were her concerns.

Dr. Nalley commented that this should be under expanded duties. He indicated that “rubber cup prophy” is not the ideal terminology and that dentists should remove calculus. He commented that part of the service may be completed by a dentist or dental hygienist.

Public comments were received from Michelle Boyce, RDH. Ms. Boyce commented that in regards to the definition of primary dentition, they look at primary teeth only. She stated when other teeth emerge, they are in transition. She stated this needs to be included in the language. She added that a dentist is going to check this, but asked if the dentist going to do the exam before the polishing. She commented that she would like to see this in the language.

Public comments were received from Misty Mattingly, RDH. Ms. Mattingly commented that when the exam would be from the dentist is important. She stated typically the dentist checks the patient after the cleaning. She stated depending on the education of the assistant, we would want the exam to be before the cleaning.

Written responses were received from Julie Pyle, Dena Kimbrel, Amanda Haddix, Jennifer Miles, Fran Shaddix, Justin Jerome, Jessica J. Phillips, Nancy H. DeMott, Heidi Adams, Tiffany Crowe, Kathryn Zotter, Meredith Fryar, Kathy Matthews, Brandy Henderson, Kristen Rochester, Donna Shewbert, Jessica NeSmith, Kelli R. He stated a major concern is testing agencies are abbreviating the exams and the state boards who are looking for an accurate assessment on competency are equally concerned. He stated that one of the Texas exam vendors has an optional prosthodontic section but discourages its use due to "cost and necessity". He commented that Georgia rules specify procedures based on DN 0-10 years Occupational Analysis results and several states are decertifying exams for not covering the necessary components to ensure competency.
